Yeast Cell Biology

August 11 - 15, 2009

Organized by:

Daniel Lew, Duke University Medical Center

Peter Pryciak, University of Massachusetts Medical School

Lois Weisman, University of Michigan

You are cordially invited to participate in the twelfth biannual international meeting on **Yeast Cell Biology** which will be held at Cold Spring Harbor Laboratory. The meeting will begin on Tuesday, August 11, and will conclude with lunch on Saturday, August 15, 2009. This meeting will cover all aspects of yeast cell biology.

The format of the meeting will include morning and evening sessions consisting of short talks, limited to approximately 12 minutes, principally on unpublished work. In addition, there will be at two poster sessions, held in the afternoons. We ask that abstracts contain only new, unpublished material. The organizers will decide the suitability of each abstract for oral or poster presentation, but please specify if you prefer a poster. The submission of an abstract is not required for attendance.

Abstract Deadline: May 22, 2009

We encourage you to register and submit abstracts for the meeting electronically at our web site. Status (talk/poster) of abstracts will be posted on our web site as soon as decisions have been made. Please bring this notice to the attention of any of your colleagues who may be interested. Cold Spring Harbor Laboratory provides limited scholarship funds through its Corporate Sponsor Program to assist participants who would otherwise not be able to attend and present results of their research. Email beavers@cshl.edu with justification by the abstract deadline in order to be considered. We hope to see you at Cold Spring Harbor in August.

Session Topics & Co-Chairs:

Membrane Trafficking

Randy Hampton & Susan Ferro-Novick

Cytoskeleton

David Drubin & David Pellman

Signaling and

Systems-Level Control

Martha Cyert & Roger Brent

Cell Cycle & Division

David Morgan & Frederick Cross

Polarity & Morphogenesis

Matthias Peter & Anthony Bretscher

Organelle Biogenesis and Inheritance

Benjamin Glick & Jodi Nunnari

Nuclear Organization

Dan Gottschling & John Aitchison

Chromosomes & Kinetochores

Doug Koshland & Elmar Schiebel
