

SHAPE THE FUTURE OF FUNGAL SCIENCE

JOIN ISHAM AS A SUSTAINING MEMBER

ABOUT US

The ISHAM (International Society for Human and Animal Mycology) is a global, independent organization representing medical mycologists, clinical scientists, and fungal disease researchers.

Founded in 1954, it now has over 1,000 members and 30 affiliated societies. ISHAM promotes research and practice in medical and veterinary mycology, publishes Medical Mycology journals, and organizes an international congress every three years.

OUR OBJECTIVE

Sustaining Members are individuals or companies committed to advancing ISHAM's mission. Join now to expand your scientific network, gain strategic insights, and support global mycology research.

WHY JOIN?

-  **Help Shape Research & Policy**
Contribute to diagnostics, therapeutics, and research priorities.
-  **Early Access & Updates**
Receive notifications on new guidelines, studies, and publications.
-  **Exclusive Networking**
Connect directly with the ISHAM Board, experts, and industry leaders.
-  **Strategic Collaboration**
Participate in committees and exchange platforms for diagnostics and therapeutics.
-  **Visibility & Recognition**
Recognition of sponsoring members on the ISHAM website and acknowledgment at events.
-  **Medical Education Opportunities**
Share targeted education with a broad scientific audience.

Join now and position your organization at the forefront of mycology, while supporting ISHAM in advancing science and improving outcomes of fungal infections, for human and animal patients across the globe.
