

Love Fungi?

Make Fungal Infections Understandable
for Everyone

Join the ISHAM Patient Advocacy Working Group:

We're creating a series of short, easy-to-read articles on invasive fungal infections, designed specifically for **patients and caregivers** - and we need your expertise!

Whether you'd like to:

- Write lay summaries,
 - Review drafts, or
 - Share ideas and resources,
- your contribution is truly valued.

As contributor, you get:

- Flexibility to focus on topics that matter: **clinical picture, diagnosis, treatment, patient stories, or ongoing research.**
- Editorial support, honorary mention and guidance at every step.

Your scientific insights, clinical experience, or simply your perspective can help make fungal infections easier to understand for those who need it most.

Interested?

We'd love to hear from you.
